

# Taxpayers facing inflated income problem on the compliance portal with these transactions asked to wait; CBDT

"Taxpayers are strongly advised against relying solely on the AIS for the computation of advance tax, as it may not be entirely accurate due to these errors," says Neeraj Agarwala, partner, Nangia Andersen India, a tax and business advisory company.

## **What should people do if the error is not solved on its own?**

The Income Tax Department's post on X said that taxpayers should wait for the correct data to be updated. "Taxpayers are urged to calculate advance tax using their own data. While the information in AIS and Form 26AS can be utilized to reconcile income and TDS, it's crucial that the primary sources of information come from bank statements, demat statements, interest certificates, etc," says Agarwala from Nangia Andersen India.
