# Risk Management Policy

The concept of risk is not new to CA practitioners. It has been around as long as the profession has provided services in a commercial setting. However, the issue of risk and risk management has increased in importance as the number and size of legal claims has increased over the years.

To enhance our system of quality control, Nangia Andersen India Pvt. Ltd. separates the responsibility for risk management and oversight of quality control monitoring from the responsibility for managing the firm's business and professional practice activities.
